

Foundation Fees

The South Central Library System Foundation (SCLSF) assesses a member library fund account management fee consisting of:

1. A fee to partially recover the costs of its operations and services. The SCLSF uses a tiered system of fees based upon each member's portfolio balance. The tiers have a maximum of 1% and a minimum of 0.5%. AND
2. The current percentage fee (0.6) charged by the holding banking/financial institution to cover its investment services costs; based upon the value of the fund at the end of each prior month.

Please note: these fees may be subject to change from time to time and will be applied uniformly to all member library fund accounts following a 30-day notice.
